Databases:	

PROJECTS / OPEN-SOURCE

Criminal Intent | Link   *Android Studio, SQLite*
Criminal Intent is an android app meant to record the details of "office crimes" – things like leaving dirty
dishes in the break room sink or walking away from an empty shared printer after documents have printed.

Nerd Launcher | Link   *Android Studio*
Nerd Launcher is a launcher app which displays a list of apps on the device. The user will press any app to
launch it. The user can even replace the default launcher screen with this app.

Graph Visualizer | Link   *Java, javaFX, fxml, css*
An application to create directed and undirected graphs.

Steganography | Link   *Java, javaFX*
Image Steganography implementation using LSB technique.
